QUESTION 1

The ADC prompting is disabled but the Send to IBM option is enabled. Which of the following prompts will the user receive?

- A. The Notes client end user is prompted to specify whether to send a diagnostic report to their company administrator and to IBM
- B. A diagnostic report is not sent to the company administrator but the Notes client end user is prompted to specify whether to send a diagnostic report to IBM
- C. The Notes client end user sees no messages or prompts enabled with no regarding diagnostic collection and reporting. A diagnostic prompting report is sent to the administrator
- D. A dialog box displays information to the end user that a diagnostic report will be sent to their company administrator. The end user is also prompted as to whether they would like to send a diagnostic report to IBM

Correct Answer: D

QUESTION 2

Henry created a security settings policy document for his organization to lock Internet passwords after a certain number of incorrect attempts. After he verified that the policy was correctly assigned to the users, he found that the lockout was still not functioning. Which of the following next steps should he take to enable this feature?

- A. Have each user log in with an incorrect password to enable the feature.
- B. Restart the server that offers the HTTP service so that the policy takes effect.
- C. Make sure that Internet password locking is enabled in the server configuration document.
- D. Create a test user account and enter incorrect passwords until the lockout takes effect. This then enables it for everyone.

Correct Answer: C
