QUESTION 1

Each time Melissa creates a certifier ID, Domino creates a certifier ID file and which of the following?

- A. Password database
- B. Certifier document
- C. Password hash file
- D. Certifier database

Correct Answer: B

QUESTION 2

Jose set up Web authentication using primary and secondary directories. Which one of the following describes the order in which he set up directories to be searched?

- A. Domino primary directory, then Domino secondary directories. This is the only option available.
- B. Domino primary directory, then either Domino or LDAP secondary directories. The administrator can specify the order of secondary searches.
- C. LDAP primary directory, then LDAP secondary directory, and then Domino secondary directories. This is the order in which secondary searches must be made.
- D. Domino primary directory, then Domino secondary directory, and then LDAP secondary directories. This is the order in which secondary searches must be made.

Correct Answer: B

QUESTION 3

Airis, the Domino administrator, has assigned an explicit policy to a user. This policy has alternate values for the same settings documents as the organizational policy. What is the result of this action?

- A. The settings from the fields will cancel each other out and no value will be applied.
- B. The organizational policy always overrides conflicting values with explicit policies.
- C. The explicit policy always overrides conflicting values with organizational policies.
- D. The administrator will receive an error when she tries to apply both policies to the user warning her of the conflict between the policies.

Correct Answer: C

**QUESTION 4**

Which of the following are optional advanced services that must be enabled manually when first configuring and installing the Domino server?

- A. SMTP server
- B. Agent Manager
- C. Calendar Connector
- D. DOLS (Domino Off-Line Services)

Correct Answer: A

QUESTION 5

Xavier has recently created a security policy that forces users to change their Notes password the first time they use the client. However, existing users are not being forced to do so. What is the cause of this?

- A. The policy was not assigned during registration.
- B. The user has already changed their Notes password.
- C. The policy does not have a forced password length.
- D. The user has logged in from the Web using HTTP first.

Correct Answer: A
