QUESTION 1

Joanne is working with two other developers on a company-wide intranet project built in XPages. Each developer has taken responsibility for different aspects of the site, but some of these occur in multiple places within the intranet. How should they manage these tasks?

A. Create SubForms within the XPages to separate and reuse the code.

B. Create Sections on each XPage to incorporate the shared functionality.

C. Create custom controls for each aspect of the site that is repeated in multiple places.

D. Create separate XPages for each primary area, then use the Source tab of the Editor view to copy the XML representing each subset offunctionality and paste it onto the necessary XPages.

Correct Answer: C

QUESTION 2

Odette is designing the index XPage that is used for navigation for her Domino application. For what purpose might Odette use the Outline view in Domino Designer in Eclipse while working with the index XPage?

A. To drag elements to rearrange sections and change the sequence of elements on the XPage.

B. To drag controls from the controls palette onto a hierarchical representation of the XML source code, typically during the initial design of the XPage.

C. Aside from the expand and collapse icons, nothing in an Outline view is clickable. Nonetheless, the Outline view provides an extremely usefulmeans to browse the XML elements of an XPage.

D. The Outline view provides a hierarchical representation of the XML source code in XPages. The developer can quickly update varioussettings from within the Outline view using right-click menu options for each element.

Correct Answer: A

QUESTION 3

Hurley is working on a shipping application which is part of the cargo working set. He switches over to the employee working set and notices that the shipping application displays as part of that set. How can Hurley remove the shipping application from the employee working set?

A. Select the shipping application and from the menu bar select File > Application > Delete.

B. Click on the folders icon on the application navigator menu, highlight the employee working set and select Edit Working Set. De-select theshipping application.

C. Select the shipping application from the Application Navigator. From the menu bar, click Project > Remove from

Working Set.

D. Click on the folders icon on the application navigator menu, highlight the employee working set and select Edit Working Set. Highlight theshipping application and click Remove from working set.

Correct Answer: B

QUESTION 4

Emma is writing code to validate the input of various fields on her Courses Xpage. In her JavaScript code, she needs to access the actual field object to examine it for content. What function should she use to get the field?

A. getElement

B. bindElement

C. getComponent

D. bindComponent

Correct Answer: C

QUESTION 5

Lenni added a style sheet to an XPage using a URL link. The style sheet contains a class to format text to be red and bold. She applied the class to a label control; however, when she previews the XPage in a web browser, the label text is bold but the font is black.

Which of the following could be causing the label font to be black?

A. A color style cannot be applied to label text.

B. Black is selected in the font color properties of the label.

C. The style sheet must be imported into the XPage application.

D. The style applied to the table cell where the label resides is overriding the label style.

Correct Answer: B
