QUESTION 1

One of your Lotus Traveler users has misplaced a mobile device. You cannot delete this person's Internet password, as it is used for Domino Web Access, nor can you delete the person record for this person. Which of the following will still allow the user to utilize Domino Web Access and NOT Lotus Traveler?

- A. Remove the Lotus Traveler policy for the user
- B. Place the user in a secondary directory on all the servers
- C. Place the user in the "Not access server" field in the server document
- D. Place the device ID in the restricted access field in the Lotus Traveler configuration database

Correct Answer: C

QUESTION 2

You want to enable early authentication for all new users after Lotus Notes 8.5 Standard has been installed. What steps are needed to achieve this?

- A. It is enabled by default.
- B. Set the parameter EARLY_AUTHENTICATION_ENABLED=1 in the users' notes.ini.
- C. Set the option in the security settings document in a policy that will be applied to the end user.
- D. Change the target in the Lotus Notes shortcut on the users' desktops to point to nlnotes.exe instead of notes.exe.

Correct Answer: A

QUESTION 3

Your Domino server has been configured for DAOS, and all mail files have also been enabled successfully. In which of the following times will consolidation occur when a user saves an attachment that meets the defined DAOS size settings?

- A. Immediately
- B. The next time the DAOS service runs
- C. After the user closes the current Notes session
- D. By the schedule defined in the server configuration document

Correct Answer: A

QUESTION 4

Halle, the Domino administrator, has been asked by Human Resources to retrieve an ID from the vault for a previous user that is no longer listed in the Domino Directory. Which of the following represents the steps she must take to retrieve this ID file?

- A. She must open the ID vault and search manually through the vault documents for the user ID in question
- B. She must register the user to create a new person document, apply the user policy for the ID vault, and then begin the extraction process
- C. She must select any person record from the Domino Directory and manually type the name of the previous user when prompted by the
- D. extraction process
- E. She must temporarily create a person record in the Domino Directory for the previous user name and then select that person document to
- F. retrieve the ID

Correct Answer: C

QUESTION 5

Abby, the Domino administrator, issued the following Domino server command: tell DAOSmgr listnlo. Which of the following results were provided from this command?

- A. Cleaned unused attachment files
- B. Displayed status of all DAOS-enabled databases
- C. Resynchronized DAOS-enabled databases with DAOS objects in the storage repository
- D. Allowed her to identify documents whose objects might be missing after a server restore

Correct Answer: D
