QUESTION 1

While creating the ID vault, you must configure the organizations that trust the vault for ID storage. Which of the following does this create?

- A. User policy configurations
- B. ID vault administrator accounts
- C. Vault trust certificates in the Domino Directory
- D. Certifier ID files of the organizations or organizational units with vault trust certificates

Correct Answer: C

QUESTION 2

Which version of Domino is the earliest version of Domino that DOT (Domino Configuration Tuner) can be run on to evaluate settings?

- A. Domino 7.0.0
- B. Domino 8.0.0
- C. Domino 8.5.0
- D. Domino 6.5.0

Correct Answer: A

QUESTION 3

Vanessa wishes to control ID file downloads from the ID vault by requiring authorization. Which of the following would allow this action?

- A. Set the download limit to 0, and raise it when necessary for users
- B. Configure a DDM event that notifies administrators of ID file download attempts
- C. Specify an administrator group in the ID vault profile to be notified of a download attempt
- D. Configure the Administration Process to request specified administrator approval before allowing downloads

Correct Answer: A

QUESTION 4

Mike has implemented Lotus Traveler for his mobile users. The users have requested the ability to read and send encrypted mail. Which of the following are required for this request to be available?

- A. Users must mail themselves a copy of their Notes ID files
- B. Users must upload their Notes ID files to their mail database
- C. Users must upload their Notes ID files to their personal address book
- D. Users must attach their Notes ID files to a draft email message in their mail database

Correct Answer: B

QUESTION 5

Users in your helpdesk utilize shared-login-enabled IDs through a supported policy setting. They have lost the local ID file for the Notes client. Which of the following steps must be performed?

- A. You must export the ID file, send it to the user, and have the user reset the password locally
- B. The user must download the ID file from the vault, provide the old password, and immediately reset it to a new password
- C. You must reset the password if the ID is in the vault, have the user provide the new password, and then download a new copy
- D. The user must generate an ID export request from the ID vault Web interface, download the ID file and change the password

Correct Answer: C
