QUESTION 1

Muriel has created a view that shows the current year\\'s reported sales in the Sales Tracking application. She would like to give her end users the ability to sort on the customer, region, and sales manager columns.

How would she accomplish this?

A. Set the `Allow custom sorting" option for the view.

B. Set each column\\'s Sort option to Descending.

C. Set the `Click on column header to sort" value to Custom for all three columns.

D. Set the `Click om column header to sort" value to Both for all three columns.

Correct Answer: D

QUESTION 2

Management has asked Bob to post an introductory Welcome page when Notes users first open the Video application.

In which one of the following places should Bob put the Welcome message?

A. In the application Using Document

B. In a document named $Welcome

C. In the application About Document

D. In the first Page in the application design

Correct Answer: C

QUESTION 3

Donna created a full-text index for the PerformanceReview database, and she was careful to select the "Index encrypted fields" option. But the HR managers, who all have the secret key that they use to encrypt the data, have reported that their search results are not yielding the expected results.

What is one possible reason for this?

A. The "Index encrypted fields" setting applies only to documents added after the full-text index is created or to documents edited and saved after the index is created.

B. The full-text index was created with an id that did not include an encryption key capable of decrypting fields before indexing.

C. Encrypted fields can be indexed only from a database replica residing on the administration server as specified on the Advanced tab of the database ACL. Donna had indexed the database on the application server.

D. The "Index encrypted fields" setting enables the indexing. The next step before creating the index is to designate the

specific encrypted fields that are to be indexed.

Correct Answer: B

QUESTION 4

Hans and Kristen, two mobile users, are editing different fields in the same document during a parallel review. The designer set a form property to merge replication conflicts.

Which one of the following will happen?

A. Edits to both fields will be saved in two identical main documents.

B. Edits to both fields will be saved in a single document marked as a replication conflict.

C. Edits to each field will be saved in two documents: one a main document and the other a response document marked as a replication conflict.

D. Edits to each field will be saved in a single document.

Correct Answer: D

QUESTION 5

Which one of the following statements about an Authors field is true?

A. Groups can be used. If individual names are used, they must be stored in Abbreviated format.

B. Groups and roles can be used. Individual names should be stored in Abbreviated format if the application will be used in multiple domains.

C. Roles can be used. If individual names are used, they must be stored in Canonical format.

D. Groups and roles can be used. Individual names should be stored in Canonical format if the application will be used in multiple domains.

Correct Answer: D
