QUESTION 1

You want to create/configure a CM8 repository for documents from a Lotus Notes application. If you intend to deduplicate attachments of the Notes application within the repository, what step(s) must be taken?

- A. Create an Item type manually according to your needs, using the CM8 administrative client.
- B. Use the ICC setup tool for configuring an IBM CM repository to create an email item type for Lotus Notes, and use this item type.
- C. Use the ICC setup tool for configuring an IBM CM repository to create an email item type for Lotus Notes, and change it according to your needs, by adding and removing attributes.
- D. Use the ICC setup tool for configuring an IBM CM repository to create an email item type for Lotus Notes, make a copy of this Item type and change it according to your needs, by adding and removing attributes.

Correct Answer: D

QUESTION 2

Which two ICC configuration settings can be exportable? (Choose two.)

- A. Security setting.
- B. Archive mapping.
- C. Search configuration.
- D. File plan configuration.
- E. Environment variables.

Correct Answer: BC

QUESTION 3

When will a mail that has been restored by the user be re-stubbed by the life cycle task route?

- A. 10 days after the restore has happened.
- B. After the period specified in the life cycle.
- C. The file will be re-stubbed after the owner has modified it.
- D. In the first run after the user has accessed the restored mail.

Correct Answer: B

QUESTION 4

What is the first step required to enable offline repositories in Lotus Domino?

- A. Replace the design of your mail database by the mail template that is enabled for Content Collector.
- B. Specify the recipients of the user notification memo and add any information that you want to communicate. Then send the memo.
- C. From the inbox of your mail database, select Actions > Install IBM InfoSphere Content Collector Offline Repository to create a memo.
- D. Right-click the Install IBM InfoSphere Content Collector Offline Repository hotspot in the user notification memo and then click Edit. At the bottom of the window that opens, add a blank line in front of the On Error Goto processError line to suppress any No signature warnings.

Correct Answer: A

QUESTION 5
