### QUESTION 1

A dealer in rare and antique books is interested in streamlining their business process. Bottlenecks occur when dealing with inventory and shipping functions in the process.

How can the dealer optimize this process?

- A. Create a new application to deal with the bottlenecks.
- B. Replace legacy systems with more advanced technology.
- C. Automate the manual steps so that the process is easier to monitor.
- D. Provide multiple paths through the process for some of the functions.

Correct Answer: D

---

### QUESTION 2

What is contained in an SOA repository as opposed to a registry?

- A. Service policy information
- B. Versions of software components
- C. Uncommitted transactions to enable compensation handling
- D. Service endpoint information to facilitate dynamic binding at runtime

Correct Answer: A

---

### QUESTION 3

Why is defining appropriate Key Performance Indicators (KPIs) important for the success of an SOA?

- A. To provide IT performance metrics
- B. To determine the marketability of the SOA processes
- C. To justify funding for migration of the processes to SOA
- D. To provide feedback indicating Return on Investment (ROI) back to the business
- E. To enable business executives to identify impediments and bottlenecks in performance of the business processes

Correct Answer: D

---

#### QUESTION 4

How does the SOA governance body ensure that services are not redundant within the organization?

- A. It must manage service distribution and rights management.
- B. It must enforce communication between stakeholders and subject matter experts.
- C. It must enforce coordination between service providers across the organization.
- D. It must coordinate communication of business requirements to development organizations during the planning phase.

Correct Answer: C

---

#### QUESTION 5

If a component of the overall system is functionally complete and operates within that system independently from the functionality of the other components, it is an example of which SOA architectural concept?

- A. Modularity
- B. Extensibility
- C. Loose coupling
- D. Separation of concerns
- E. Composite implementation

Correct Answer: A
