#### QUESTION 1

Within a business process application, access to business data in other systems is accomplished via:

- A. tracking points
- B. integration service.
- C. exposed process variables.
- D. connection lines between Business ProcessDefinition (BPD) activities.

Correct Answer: B

---

#### QUESTION 2

One week prior to the start of Iteration 5, which is planned for a two weeksduration, the BPM Program Manager has asked developers to review the proposed user stories assigned to the iteration, define implementation tasks and provide estimates in hours. During the commitment meeting prior to iteration start, one of the user stories has a single implementation task with an estimate of 80 hours. What should the BPM Program Manager recommend?

- A. Break down the user story into child stories because it is an epic.
- B. Break down the implementation work into tasks that can be described in 8 hours or less.
- C. Pad the task with 20% more hours because developers typically under-estimate their required effort.
- D. Cancel the user story and move it to a future iteration because 80 hours too large to fit into a two-week iteration with confidence.

Correct Answer: B

---

#### QUESTION 3

What WebSphere Lombardi Edition product feature provides developers the ability to reuse, and share assets?

- A. library
- B. toolkits
- C. snapshots
- D. asset tagging

Correct Answer: B

---

#### QUESTION 4

The following is an example of a user story: s a hiring manager, I need a web form to enter results of my interview with

the candidate. If I decided not to hire the candidate, I need to email the hiring manager, I need a web form to enter results of my interview with the candidate. If I decided not to hire the candidate, I need to email the recruiter so that he/she can call the candidate. If I decided to hire the candidate, I need to open an MS Word template and draft an offer for employment? What feedback should the program manager give on the user story?

- A. It is a poorly written user story because it specifies implementation details.
- B. It is a poorly written user story because it documents what the user needs to do.
- C. It is a good user story because it leaves out all implementation details as to how the work will actually get done.
- D. It is a good user story because it maintains a clear definition of what the hiring manager needs to accomplish and why.

Correct Answer: A

---

#### QUESTION 5

A development team is preparing Playback 2. The Playback includes system integrations. When preparing for a playback, what should the program manager do? Advise the development team to:

- A. use power point slides with screenshots.
