### QUESTION 1

A customer is planning an upgrade to a z114. They have indicated that they will be adding additional disk storage in the future and want to make sure they have room for non disruptive future I/O growth. Which of the following is the appropriate first action for the Technical Specialist?

- A. Use the eConfig Plan Ahead feature to place an order for an additional I/O drawer but don order any cards until they need them.
- B. Ask the sales specialist to give the customer a discount and order the cards at the end of the quarter
- C. Carefully plan out the upgrade based upon the current I/O configuration. Confirm there is enough room to support and add a future I/O drawer if needed.
- D. The z114 hardware model M10 has more I/O adapters so you should order the M10 model which will assure you have room for future growth.

Correct Answer: C

---

### QUESTION 2

What is a differentiator of the System z compared to other hardware platforms?
