QUESTION 1

Sammy is the project manager for her organization. She would like to rate each risk based on its probability and affect on time, cost, and scope. Harry, a project team member, has never done this before and thinks Sammy is wrong to attempt this approach. Harry says that an accumulative risk score should be created, not three separate risk scores. Who is correct in this scenario?

A. Harry is correct, because the risk probability and impact considers all objectives of the proj ect.

B. Harry is correct, the risk probability and impact matrix is the only approach to risk assessm ent.

C. Sammy is correct, because sheis the project manager.

D. Sammy is correct, because organizations can create risk scores for each objective of the pr oject.

Correct Answer: D

QUESTION 2

Eric is the project manager of the NQQ Project and has hired the ZAS Corporation to complete part of the project work for Eric\\'s organization. Due to a change request the ZAS Corporation is no longer needed on the project even though they have completed nearly all of the project work. Is Eric\\'s organization liable to pay the ZAS Corporation for the work they have completed so far on the project?

A. It depends on what the outcome of a lawsuit will determine.

B. No, the ZAS Corporation did not complete all of the work.

C. It depends on what the termination clause of the contract stipulates.

D. Yes, the ZAS Corporation did not choose to terminate the contract work.

Correct Answer: C
