QUESTION 1

When you are creating custom dashboards, which factors should you consider? (Choose three)

- A. Out-of-the-box templates are available to help you organize multiple views.
- B. The Add Dashboard button on the Available Dashboards page is visible to all users by default.
- C. If you need to display more than two views, best practice is to use multiple pages on your dashboard.
- D. The workflows for creating new dashboards and for customizing the out-of-the-box dashboards are essentially the same.
- E. Views are generally selected from the Custom View

Correct Answer: ADE

QUESTION 2

When you create or edit a monitoring profile, you can use the Change Detection Rate option to set the frequency at which the Data Aggregator checks for changes. When you set the rate of detection, the Automatically Update Metric Families check box is selected by default. What happens if you clear this check box?

- A. The Change Detection Rate field will no longer be editable.
- B. The automatic updating of metric families will continue unless you also change settings for specific metric families.
- C. The Data Aggregator will continue to automatically monitor new components but will no longer retire old components.
- D. The Events Display dashboard will need to be monitored and updates will need to be performed manually on the Polled Metric Families page.

Correct Answer: D

QUESTION 3

In which order are the following CA Performance Management components installed?

1.
Data Collector
2.
Data Repository
3.
Data Aggregator

4.

CA Performance Center

- A. 1,2,3,4
- B. 2,3,4,1
- C. 3,1,2,4
- D. 4,3,1,2

Correct Answer: B

QUESTION 4

- A. Help icons bring you to the correct section of the online help.
- B. Information on users and roles is available in the Data Aggregator guide only.
- C. Online help is solely accessible from the Help link in the upper-right corner of the CA Performance Center UI.
- D. The administration guides might save you time when you are attempting an unfamiliar administrative operation.

Correct Answer: AD

QUESTION 5

In CA Performance Center, groups are organized in the Groups Tree. Which features characterize the Groups Tree?
(Choose two)

- A. Its root level is called the Root Group node.
- B. It is used when an administrator manages groups.
- C. It includes the Defined Tenants sub-tree for groups in a tenant space.
- D. It includes a sub-node in the Defined Tenants sub-tree for Default Space groups.

Correct Answer: BC
