### QUESTION 1

How can Data Collector poll logs help you troubleshoot? (Choose two)

- A. They help you to address user login problems.
- B. They enable you to examine SNMP traffic between a Data Collector and a specific IP address.
- C. They help you to debug synchronization problems between CA Performance Center and the Data Aggregator.
- D. They help you to resolve issues such as unexpected dashboard values and metric family discovery not working.

Correct Answer: BD

---

### QUESTION 2

As the Global Administrator of a CA Performance Management instance that hosts three tenants, you are only able to see two of the five available SNMP profiles. Why are you unable to view all five profiles?

- A. Because in this instance, two profiles are associated with the tenant you are currently administering
- B. Because Global Administrators typically need to refresh the screen before the full set of profiles appear
- C. Because the Global Administrator must change an entry in the SNMP\_549.xml file to see all SNMP profiles
- D. Because the tenant administrators must change the permission of the SNMP profiles that they manage to enable the Global Administrator to see them

Correct Answer: A

---

### QUESTION 3

In CA Performance Management, metric families are used to tie the vendor certifications to:

- A. Monitoring profiles
- B. Tenant groups
- C. SNMP profiles
- D. IPdomains

Correct Answer: A

---

### QUESTION 4

In CA Performance Center, groups are organized in the Groups Tree. Which features characterize the Groups Tree? (Choose two)

- A. Its root level is called the Root Group node.
- B. It is used when an administrator manages groups.
- C. It includes the Defined Tenants sub-tree for groups in a tenant space.
- D. It includes a sub-node in the Defined Tenants sub-tree for Default Space groups.

Correct Answer: BC

---

#### QUESTION 5

In which order are the following CA Performance Management components installed?

1.  
Data Collector
  2.  
Data Repository
  3.  
Data Aggregator
  4.  
CA Performance Center
- A. 1,2,3,4
  - B. 2,3,4,1
  - C. 3,1,2,4
  - D. 4,3,1,2

Correct Answer: B
