QUESTION 1

A customer is using TM1 subsets.

Which two statements are true? (Choose two.)

- A. There are three types of subsets: conventional, static, and dynamic.
- B. There are only two access-types for subsets: private and public.
- C. In TM1, there is a notion of a default subset that will appear in the system default view
- D. Subsets can only contain leaf-level elements.

Correct Answer: BC

QUESTION 2

You develop a new Active Form and would like to format it so that all simple (N-level) cells have a gray background with standard row IDs.

- A. To the first data row in the Active Form if Column A = N
- B. To the first data row in the Active Form if Column A = 0
- C. To Format Range 0 in the Format Area
- D. To Format Range N in the Format Area

Correct Answer: D

QUESTION 3

Active Forms support which three features? (Choose three.)

- A. Zero suppression columns
- B. Zero suppression rows
- C. Drill-through
- D. Expandable/collapsible consolidations rows
- E. Expandable/collapsible consolidations columns

Correct Answer: BCD

QUESTION 4

What does element-level security control?

- A. Access to cubes that contain the secured elements
- B. The ability to add, remove, and reorder the secured elements in a dimension
- C. Access to the cells identified by the secured elements
- D. Access to applications that contain the secured elements

Correct Answer: C

QUESTION 5

You are importing data into TM1 using TurboIntegrator. Which three actions are available? (Choose three.)

- A. Create or update a dimension from an external source.
- B. Create or update a cube from an external source.
- C. Re-create a cube to change both data and meta data.
- D. Re-order the dimensions of an existing cube.
- E. Remove a dimension to an existing cube.

Correct Answer: ABC
