QUESTION 1

Ken, an entrepreneur in Leeds finds the quality of the tea locally available so low, that he decides to research superior teas around the world. He decides to market, sell and distribute these superior teas via the web. His market strategy is to offer superior products on a well-designed website with graphics that are fast to load, has high availability, superior usability and fast response times.

The website will offer the following:

- An innovative interactive catalogue of teas, which not only enables customers to buy the product, but also enables them to provide feedback by rating the teas (which will influence his stock purchasing levels)

-

Provide the customer with the ability to use secure credit card transactions

-

Provide the customer to give general feedback

Ken selects an iterative model for the development of the prototypes. The team consists of three developers that are experienced in web development. Ken, although he doesn\\'t have

technical skillset, is concerned with quality. He doesn\\'t believe a lot of documentation is necessary and he wants the website to be completed quickly.

The test basis contains the following:

-Story boards that show the information flow and page links through the site

-HTML pages developed to date.

-A statement of non-functional requirements.

With the strategy taking shape, Ken asks your advice on the specific testing techniques that should be used to complete the required testing, bearing in mind the nature of the

application and the nature of Ken\\'s overall objectives.

How does phase containment contribute to reducing the cost of development?

A. By eliminating defects as early as possible to minimize defect propagation

B. By ensuring that the deliverables from any life cycle phase are tested only in that phase

C. By using specific test techniques at each level and only at that level

D. By concentrating the testing effort on the phases where failures occur

Correct Answer: A

QUESTION 2

Ken, an entrepreneur in Leeds finds the quality of the tea locally available so low, that he decides to research superior teas around the world. He decides to market, sell and distribute these superior teas via the web. His market strategy is to offer superior products on a well-designed website with graphics that are fast to load, has high availability, superior usability and fast response times.

The website will offer the following:

- An innovative interactive catalogue of teas, which not only enables customers to buy the product, but also enables them to provide feedback by rating the teas (which will influence his stock purchasing levels)

-

Provide the customer with the ability to use secure credit card transactions

-

Provide the customer to give general feedback

-Story boards that show the information flow and page links through the site

-HTML pages developed to date.

-A statement of non-functional requirements.

With the strategy taking shape, Ken asks your advice on the specific testing techniques that should be used to complete the required testing, bearing in mind the nature of the application and the nature of Ken’s overall objectives.

Correct Answer: null

QUESTION 5

Which of the following criteria on test progress would enable the business to determine a likely `go live\\' date?

(i)

Number of tests planned versus number of tests executed

(ii)

Number of high priority defects outstanding

(iii) The test team\\'s timesheets in order to show how much effort has been devoted to testing

(iv)

Number of tests passed and number failed

(v)

Number of defects found in each development area

(vi)

The rate at which defects are being found

A.

(ii), (iii), (iv)

B.

(i), (iii), (v)

C.

(i), (ii), (vi)

D.

(iv), (v), (vi)

Correct Answer: C
