QUESTION 1

During an online database backup, which files must be saved to ensure that the Oracle database can be restored to an internally consistent state?

A. The tablespace data files, the database control file, and the database parameter file

B. Oracle online redo log files and the database control file

C. The Oracle executables, the database parameter file, and the tablespace data files

D. Tablespace data files, the database control file and all database redo logs written during the online backup

E. Offline redo log files, the database control file, and the Oracle executables

Correct Answer: D

QUESTION 2

Which statements regarding user management in an AS ABAP-based SAP system are correct? (Choose two.)

A. SAP recommends to assign authorization profiles via the assignment of roles to the user master data.

B. A user with user type "System" cannot log on to the system by using the SAP GUI.

C. If you forgot your password you can use the "User -> New Password" menu path on the logon screen to notify the system administrator that you are requesting a new password.

Correct Answer: AB

QUESTION 3

Which of the following are consequences of a work process reservation for class "A" jobs? (Choose two)

A. A dedicated background work process is reserved for class "A" jobs.

B. Class "A" jobs are started with a higher probability at their planned start time.

C. Class "B" and class "C" jobs can encounter delays.

D. When all background work processes of an SAP system are reserved for class "A" jobs, jobs of classes "B" and "C" will be automatically promoted to class "A".

Correct Answer: BC

QUESTION 4

Which statements are correct for Instance? (More than one answers are true)

A. Using Oracle Real Application Clusters (RAC), one database is served by two or more instances.

B. The combination of Oracle (background) processes and memory buffers is called an Oracle instance

C. Every running Oracle database is associated with an Oracle instance.

D. Every Oracle database needs shared instance.

Correct Answer: BD

QUESTION 5

Which of the following statements regarding the system profile files are correct? Note: There are 2 correct answers to this question.

A. The profile files are created during the installation of the system and can also be edited later.

B. After maintenance of a dynamically switchable profile parameter, the profile is read immediately.

C. The Profile files can be only maintained by operation system tools.

D. The Profile files are only read when the system/instance is started.

Correct Answer: BC
