QUESTION 1

If you look at the following screenshot taken from an SAP Management Console (SAP MC), which statement about the status of the SAP system DEV is correct?

- A. The dialog instance D01 of SAP system DEV is stopped.
- B. The database belonging to SAP system DEV is in status "blue". This means that the SAP system is going to be stopped in a few minutes.
- C. Some processes of the SAP system DEV are not running.

Correct Answer: C

QUESTION 2

How can you prevent a transaction log overflow in a normal situation?

- A. Schedule regular log backups.
- B. Schedule regular differential backups.
- C. Schedule regular full database backups using the option WITH LOG_TRUNCATE in the backup command.
- D. Set the recovery model to simple and schedule regular log backups.

Correct Answer: A

QUESTION 3

How can you determine the current patch level of your SAP NetWeaver AS Java 7.0?

- A. Within the file java_vers in the work directory from the Central Services Instance of SAP NetWeaver AS Java.
- B. On the operating system level, using `\\java -version\\`
- C. Using the System Information application (alias: `/sap/monitoring/SystemInfo`) of SAP NetWeaver AS Java.

Correct Answer: C

QUESTION 4

Which of the following functions are offered by CCMS-based monitoring (transaction RZ20)?

- A. Monitoring different attributes of all instances of one SAP system using a single monitor.
- B. By default, all alerts in transaction RZ20 generate corresponding mail notifications.
- C. Monitoring different attributes of different SAP systems using a single monitor.

Correct Answer: AC

QUESTION 5

Which statement regarding remote printing with SAP NetWeaver AS ABAP is correct?

- A. If you want to configure remote printing for an output device, you need to choose access method C for Windows operating systems.
- B. If you want to configure remote printing for an output device, you have to choose access method R in every case (on all operating systems).
- C. If you want to configure remote printing for an output device, you can use access methods U and S, depending on your operating system.

Correct Answer: C
