### QUESTION 1

You are configuring network teaming on a PowerEdge server. The server has Windows 2000 installed and you do not know what network adapters are in the system. Without physically opening the chassis, what are two ways to see which network adapters are installed using the operating system? (Choose two.)

- A. type `ifconfig -a` at a command prompt; on the description line, the manufacturer and device type will be named
- B. right-click Network Neighborhood, select Properties, double-click Internet Protocol (TCP/IP), and view protocol-bound adapters
- C. type `ipconfig /all` at the command prompt; on the description line, the manufacturer and device type will be named
- D. right-click My Computer, select Manage, left-click Device Manager, expand Network Adapters, and view installed adapters

Correct Answer: CD

---

### QUESTION 2

Which three requirements must you meet to install OMSA in a Red Hat Linux environment? (Choose three.)

- A. You must do a custom installation to support Linux.
- B. The running kernel must have loadable module support enabled.
- C. You must purchase the Linux version of OMSA.
- D. The "ucd-snmp" or "net-snmp" package that is provided with the operating system must be installed.
- E. You must be logged in as root.

Correct Answer: BDE

---

### QUESTION 3

Which two statements are true about executing Server Diagnostics using OMSA? (Choose two.)

- A. You can click Result History to see a record of the results of diagnostic tests that have already been executed.  
"PassAny Exam. Any Time." - 17
- B. You can schedule, in advance, as many as three groups of tests to be executed.
- C. Because a group of tests is executed simultaneously, no other operations should be performed during the tests.
- D. The Diagnostic Service is not supported on Red Hat Linux systems.
- E. You must have Admin or Power User privileges to execute the diagnostic tests.

Correct Answer: AE

---

#### QUESTION 4

Which two Dell servers are rack dense optimized? (Choose two.)

- A. PowerEdge 2600
- B. PowerEdge 1655MC
- C. PowerEdge 1600SC
- D. PowerEdge 1750

Correct Answer: BD

---

#### QUESTION 5

Which two operations can be performed with the DSA CD? (Choose two.)

- A. run system diagnostics on your server
- B. create NetWare 5.1/6.0 driver/utilities diskette(s)
- C. change the Dell Service Tag via the Service Tag Utility
- D. create Windows 2000 driver/utilities diskette(s)

Correct Answer: BD
