### QUESTION 1

You are designing a new VMAX array. The customer's primary concern is maximizing capacity available to the host. What RAID protection should you recommend?

- A. RAID-5 (7+1)
- B. RAID-6 (6+2)
- C. RAID-1/0
- D. RAID-5 (3+1)

Correct Answer: A

---

### QUESTION 2

Which database workload is suitable for an EFD configuration?

- A. Database objects with a random read workload
- B. Oracle online redo logs and archive log files
- C. DSS database with high sequential write activity
- D. Database objects with pure sequential workload

Correct Answer: A

---

### QUESTION 3

A customer plans to migrate mainframe and UNIX hosts from another vendor's array to an EMC Symmetrix. You are responsible for the design of the VMAX 20K solution that is to be replicated to a metropolitan bunker site. There is no tolerance for data loss.

Which input data sets do you need for a BCSD design of the replication solution?

- A. CMF/SMF data for mainframe hosts SAR data for HP-UX hosts
- B. SMF/TPF for mainframe hosts SAR data for AIX hosts
- C. CMF/TPF data for mainframe hosts SAR data for Linux hosts
- D. SMF/TPF data for mainframe hosts IOSTAT data for AIX hosts

Correct Answer: A

---

### QUESTION 4

A customer is migrating from a DMX to a VMAX. To minimize the outage window Open Replicator hot pull has been selected to perform the migration. Which Open Replicator license is required and which array should it be applied to?

- A. Open Replicator/LM on the VMAX.
- B. Open Replicator/LM on the DMX.
- C. Open Replicator/DM on the VMAX.
- D. Open Replicator/DM on the DMX.

Correct Answer: A

---

#### QUESTION 5

A customer has purchased a new VMAX and is in the process of setting up Open Replicator for a migration. What is a consideration for device pairing for the migration?

- A. New devices must be of the same RAID type.
- B. New Device must be the same size or smaller.
- C. New Device must be of the same Meta Configuration.
- D. New device must be the same size or larger.

Correct Answer: D
