QUESTION 1

Which DQL hint could be used to help to optimize a complex query where the join seems to be the major bottleneck?

A. INDEX

B. RETURN_TOP

C. FORCE ORDER

D. OPTIMIZE_TOP

Correct Answer: C

QUESTION 2

What is the maximum number of Dmbasic Method Server threads that you can configure?

A. the value set in the server_cache_size

B. the value set in the wf_agent_worker_threads

C. the value set in the concurrent_sessions

D. the value set in the max_session_count

Correct Answer: C

QUESTION 3

What is the difference between object replication and content replication?

A. Object replication and content replication are the same.

B. Object replication moves object metadata and content files from a source repository to a target repository; content replication moves content files only to a target repository.

C. Object replication synchronizes object metadata and content files to a source repository to a target repository; content replication synchronizes content files between filestores in a single repository.

D. Object replication copies object metadata and content files from the source repository and deletes them in the target repository; content replication copies only content files to the target repository and deletes them in the source repository.

Correct Answer: C

QUESTION 4

Which statement is true about the installation of WDK applications?

A. Each WDK application or multiple instances of the same application must be installed on its own application server.

B. You can install more than one WDK application or multiple instances of the same application on a single application server using the same virtual directory.

C. You can install more than one WDK application or multiple instances of the same application on a single application server using a different virtual directory for each application instance.

D. You can install more than one WDK application or multiple instances of the same application on a single application server and using the same virtual directory as long as DFC has its own virtual directory.

Correct Answer: C

QUESTION 5
