QUESTION 1

A customer experiences a system failure on an Isilon storage node.However, the disk drives in the node are not affected.

What is the preferred method for restoring cluster integrity?

A. Engage EMC support to perform a Disk Tango process to move drives, journal, and boot volumes to a replacement chassis

B. Allow OneFS to proceed with its automatic SmartFail process to re-protect the failed node

C. Migrate the disks from the failed node into spare drive bays on other nodes

D. Initiate a manual SmartFail process on the node as it is not started automatically

Correct Answer: A

QUESTION 2

You are setting up SmartPools on the cluster. Which Microsoft Windows system tool will illustrate the difference in performance experienced by clients connecting to different tiers of storage?

A. IOZone

B. Iometer

C. iostat

D. MiTrend

Correct Answer: A

QUESTION 3

A potential customer uses a solution from an EMC competitor for NFS storage in their main data center. The existing arrays are five years old, and the customer would like to consolidate them into a single new system. The entire workload is generated by eight Linux hosts connected to the arrays that process video files. The customer informs you they are not able to collect performance information from the existing arrays.

Which tools can capture the workload requirements?

A. iostat and nfsstat

B. MiTrends and netmon

C. netstat and esxtop

D. Wireshark and sysstat

Correct Answer: A

QUESTION 4

Which type(s) of data is predominately associated with home directories and file shares?

A. E-mail files, PPT, Word documents

B. Oracle directories

C. SQL database files

D. XML data

Correct Answer: A

QUESTION 5

You need to gather information in order to design an Isilon solution. What are included in the Top 10 qualification questions?

A. Required capacity, average file size, growth rate, and network supplier

B. Current infrastructure, desired protocols, CapEx/OpEx preference, and growth rate

C. Required capacity, applications in use, desired protocols, and growth rate

D. Current infrastructure, applications in use, desired protocols, and company turnover

Correct Answer: A
