QUESTION 1

When a file or folder is deleted, the complete path, including the original file name, is stored in a special hidden file called "INF02" in the Recycled folder. If the INF02 file is deleted, it is re-created when you_____.

- A. Restart Windows
- B. Kill the running processes in Windows task manager
- C. Run the antivirus tool on the system
- D. Run the anti-spyware tool on the system

Correct Answer: A

QUESTION 2

Network forensics can be defined as the sniffing, recording, acquisition and analysis of the network traffic and event logs in order to investigate a network security incident.

- A. True
- B. False

Correct Answer: A

QUESTION 3

What is the first step that needs to be carried out to crack the password?

- A. A word list is created using a dictionary generator program or dictionaries
- B. The list of dictionary words is hashed or encrypted
- C. The hashed wordlist is compared against the target hashed password, generally one word at a time
- D. If it matches, that password has been cracked and the password cracker displays the unencrypted version of the password

Correct Answer: A

QUESTION 4

Which of the following steganography types hides the secret message in a specifically designed pattern on the document that is unclear to the average reader?

- A. Open code steganography
- B. Visual semagrams steganography

- C. Text semagrams steganography
- D. Technical steganography

Correct Answer: A

QUESTION 5

You are carrying out the last round of testing for your new website before it goes live. The website has many dynamic pages and connects to a SQL backend that accesses your product inventory in a database.

You come across a web security site that recommends inputting the following code into a search field on web pages to check for vulnerabilities:

When you type this and click on search, you receive a pop-up window that says:

"This is a test." What is the result of this test?

- A. Your website is vulnerable to SQL injection
- B. Your website is vulnerable to CSS
- C. Your website is vulnerable to web bugs
- D. Your website is not vulnerable

Correct Answer: B
