- B. 2

C. 4

D. 8

Correct Answer: A

QUESTION 5

You are assigned to assist with the search and seizure of several computers. The magistrate ordered that the computers cannot be seized unless they are found to contain any one of ten previously identified images. You currently have the ten images in JPG format. Using the EnCase methodology, how would you best handle this situation?

A. Use FastBloc or a network/parallel port cable to acquire forensic images of the hard drives, then search the evidence files for the previously identified images.

B. Use FastBloc or a network/parallel port cable to preview the hard drives. Go to the Gallery view and search for the previously identified images.

C. Use FastBloc or a network/parallel port cable to preview the hard drives. Conduct a hash analysis of the files on the hard drives, using a hash library containing the hash values of the previously identified images.

D. Use an EnCase DOS boot disk to conduct a text search for hild porn. Use an EnCase DOS boot disk to conduct a text search for child porn?

Correct Answer: C
