QUESTION 1

John works as a professional Ethical Hacker. He has been assigned a project to test the security of www.we-are-secure.com. He successfully performs a brute force attack on the We-are-secure server. Now, he suggests some countermeasures to avoid such brute force attacks on the We-are-secure server. Which of the following are countermeasures against a brute force attack? Each correct answer represents a complete solution. Choose all that apply.

- A. The site should use CAPTCHA after a specific number of failed login attempts.
- B. The site should restrict the number of login attempts to only three times.
- C. The site should force its users to change their passwords from time to time.
- D. The site should increase the encryption key length of the password.

Correct Answer: AB
