### QUESTION 1

David works as a Network Administrator for NetTech Inc. The company has a Windows Server 2008 domain-based network. The network has a print server with two hard disks as basic disks, and 120 Windows XP Professional client computers. Users complain that printing is slow. To improve the printing performance, David wants to create a dynamic volume. Which of the following dynamic volumes will he create to enhance the performance?

- A. Striped volume
- B. Spanned volume
- C. RAID-5 volume
- D. Mirrored volume

Correct Answer: A

---

### QUESTION 2

Which of the following is a read-only copy of a zone and obtains its resource records from other name servers?

- A. Secondary zone
- B. Primary zone
- C. Stub zone
- D. SOA zone

Correct Answer: C

---

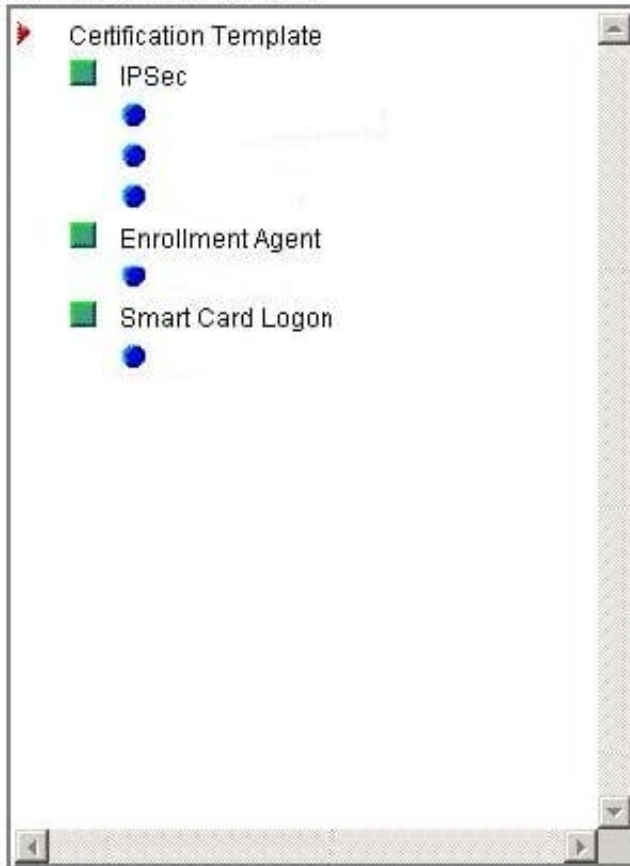

### QUESTION 3

You work as a Network Administrator for Net World International. The company has a Windows Server 2008 network environment. The network is configured as a Windows Active Directory-based single domain single forest network. The functional level of the forest is Windows Server 2008. All client computers on the network run Windows Vista Ultimate. You are configuring a public key interface (PKI) to support domain users and computers. All users will use smart cards for logon. You have configured a global group named SCIssuer that will issue smart cards for all domain users. A file server named SecServer is configured on the network. The certificate-based IPsec encryption is required for all communications to and from the SecServer server. A VPN server is configured on the network to enable sales managers to connect to the network remotely using their laptops which run Windows Vista Ultimate. The L2TP connection is required for the VPN server. Place the users, computers, and groups to the certificate templates that are required for implementing the PKI infrastructure

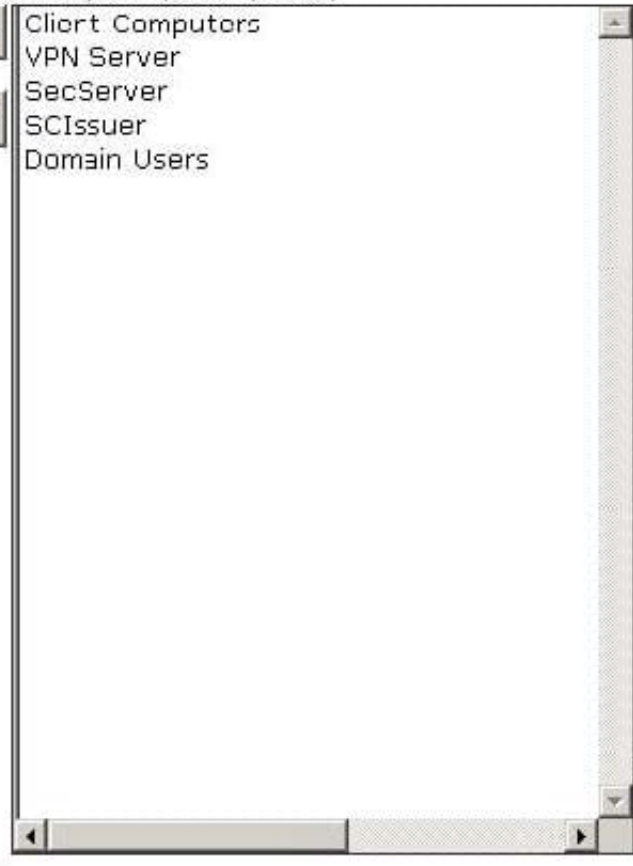

☒ Correct Answer ☐ Your Answer

Net World International

Users, Computers, Group

Select and Place:

☒ Correct Answer ☐ Your Answer

Net World International

Certification Template

IPSec

Enrollment Agent

Smart Card Logon

Users, Computers, Group

Client Computers

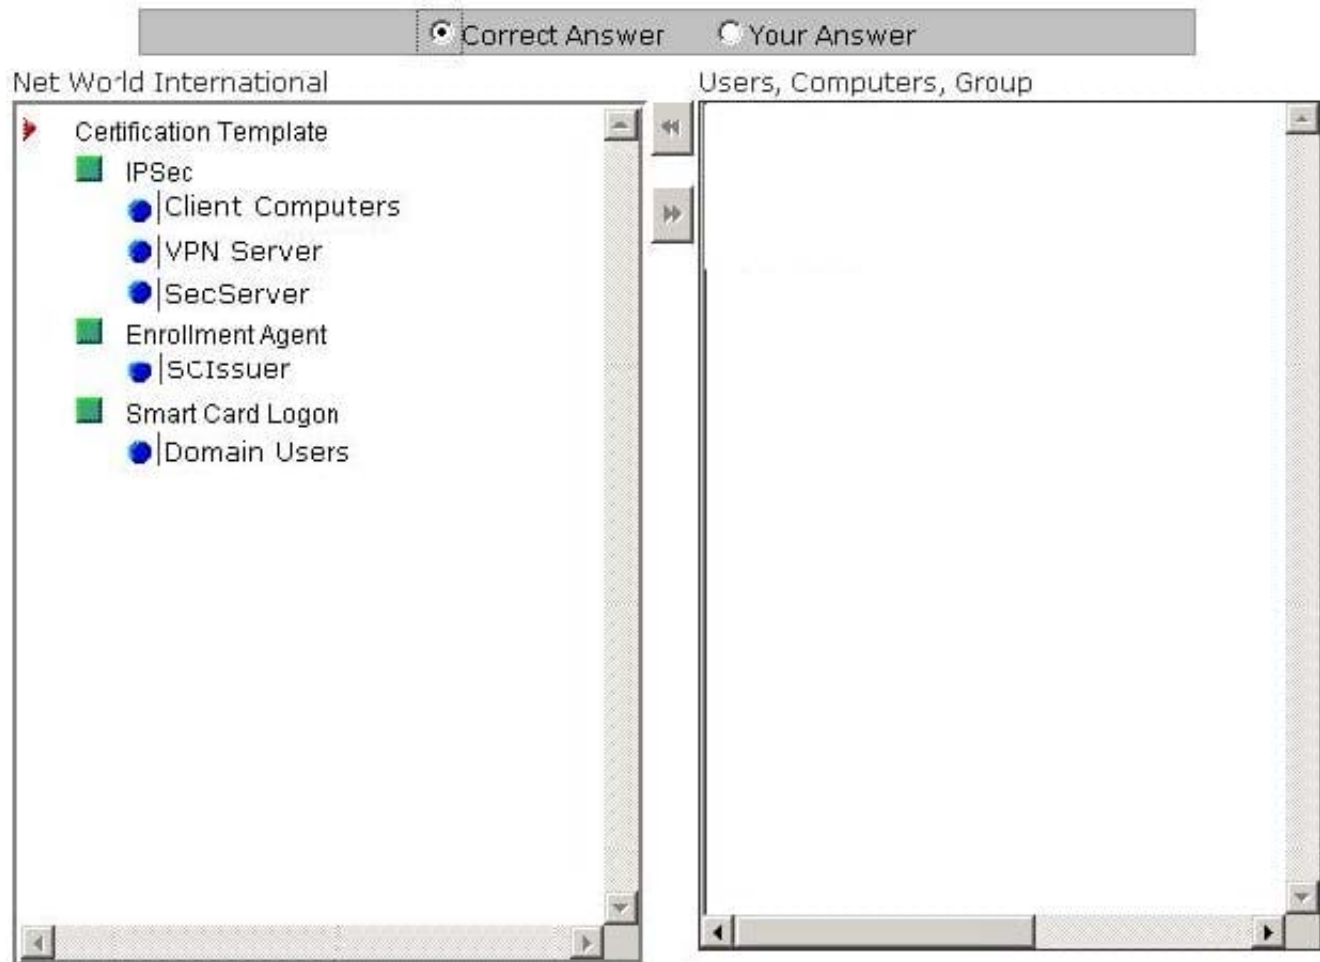

VPN Server

SecServer

SCIssuer

Domain Users

Correct Answer:

**QUESTION 4**
