A. DFSR

B. DNS

C. DFS

D. EFS

Correct Answer: B

QUESTION 5

You are the Administrator of a Windows 2000 based network for Info Tech Inc. You install and configure Certificate Authorities (CAs) on the network. You are currently configuring the public key group policy for the domain.

You configure the group policy to specify automatic enrollment and renewal for certificates. But when you attempt to test this configuration, you find that the enrollment is not working properly.

What is the most likely cause?

A. The group policy is not enabled for the domain.

B. You failed to add the CA certificate to the trusted root certification authorities container.

C. Certificate enrollment and renewal is not enabled for the group policy.

D. An enterprise CA is not online.

Correct Answer: D
