### QUESTION 1

You work as a Software Developer for UcNet Inc. You write the following code using Java.

```
class StringTest
{
public static void main(String args[])
{
String s = "Hi";
concat("There");
System.out.println(s);
}
}
```

What will happen when you try to compile and execute the code?

- A. It will not compile.
- B. It will compile and execute successfully and will display Hi as the output.
- C. It will compile but will throw an exception at runtime.
- D. It will compile and execute successfully and will display HiThere as the output.

Correct Answer: B

---
