-  **800,000+** Satisfied Customers

QUESTION 1

What is the function of the HBA in an HP heterogeneous SAN?

- A. allows a server to communicate with other fabrics
- B. provides a direct fiber interconnect between the server and the storage system
- C. allows a server to communicate with other SAN devices
- D. provides a direct SCSI interconnect between the server and the Fibre Channel switch

Correct Answer: C

QUESTION 2

What is a fabric hop?

- A. an ISL connection that provides data routing between any two switches
- B. a map between an input port and an output port to reach the next port
- C. the best path between any two switches in the fabric
- D. a chain of switches from the sources to the destination that allows two devices to communicate
- E. each fibre connection between the host and storage

Correct Answer: A

QUESTION 3

You are preparing a series of presentations from data you collected in an interview with your customer. Within one presentation, you have a Future Plans? section and your notes include information about TCO and ROI of your solution.

Which member of the CxO team would be most interested in this information?

- A. IT Director
- B. Chief Executive Officer (CEO)
- C. Chief Operation Officer (COO)
- D. Chief Financial Officer (CFO)

Correct Answer: D

QUESTION 4

When should you implement fabric zoning? (Select two.)

- A. when you want to limit the maximum number of node port in a fabric, based on what is supported by the storage system
- B. when inter-switch link trunking between core switches is implemented
- C. when you want to isolate known interaction problems in a heterogeneous SAN environment
- D. when you want to improve SAN performance when the application runs slowly
- E. when you have HP OpenVMS and Tru64 UNIX operating systems connected to the same storage subsystem

Correct Answer: AC

QUESTION 5

Which SAN extension technology should you propose if the distance between the data centers is 600 km?

- A. WDM
- B. FCIP
- C. Fibre Channel with long-wave transceivers
- D. ATM

Correct Answer: B
