QUESTION 1

An application enhancement adds 3 business functional attributes to each of 3 files. Each of these files had been valued at 2 RETs and 19 DETs. All of the DETs for each of these files are maintained using the same screen in the application. What is the functional size of the transactional function after the enhancement?

- A. 3
- B. 4
- C. 6
- D. Not counted

Correct Answer: C

QUESTION 2

All debit payments are stopped when the user issues a stop payment for a given debit card number. A message gets sent to the Debit Card application once the stop payment is successful. How would the stop payment be measured?

- A. 1 EQ and 1 EI
- B. 1 EI
- C. 1 EO
- D. 1 EQ

Correct Answer: B

QUESTION 3

The Account data store is maintained by 2 different applications, the Accounts Payable application and the Accounts Receivable application. Each application has its own unique view of the data. There are some common data elements, and some that are unique to each application. How would you count the Account data store?

- A. ILF to Accounts Payable, ILF to Accounts Receivable
- B. ILF to Accounts Payable, EIF to Accounts Receivable
- C. EIF to Accounts Payable, ILF to Accounts Receivable
- D. EIF to Accounts Payable, EIF to Accounts Receivable

Correct Answer: A

QUESTION 4

The user requires the ability to retrieve detailed information on a specific item in inventory by entering the item number and pressing the Retrieve button. When the detailed information is displayed, the user is also given the ability to change the detailed information or delete the entire item from the inventory and pressing either the Change or Delete button. How would this (these) transactional function(s) be measured?

- A. 1 EQ
- B. 1 EI and 1 EQ
- C. 2 EIs
- D. 2 EIs and 1 EQ

Correct Answer: D

QUESTION 5

What would be the correct sequence of activities for measuring transactional functions? 1. Classify each transactional function as an EI, EO or EQ 2. Identify each elementary process required by the user

3. Determine the functional complexity for each transactional function 4. Determine the functional size for each transactional function 5. Count FTRs for each transactional function 6. Count DETs for each transactional function

- A. 1-3-2-1-4-5
- B. 2-3-1-6-5-4
- C. 4-2-1-5-6-3
- D. 2-1-5-6-3-4

Correct Answer: D
