QUESTION 1

A Web site is available to all users but it does not display correctly when using basic Web access.

You want to provide an alternate method for accessing the Web site through the Junos Pulse Secure Access Service while continuing to provide all other Web content using basic Web access.

In the Admin UI, which two actions must be performed for users to access the Web site? (Choose two.)

- A. Create a Web Proxy policy.
- B. Create a Do Not Rewrite Selective Rewrite policy.
- C. Configure Junos Pulse to provision Layer 3 access.
- D. Configure a proxy connection on your browser.

Correct Answer: BC

QUESTION 2

Your customer requires some users to be mapped to a specific role. The Active Directory (AD) administrator frequently changes users from one AD group to another. Which role mapping rule type should you use?

- A. the user's group membership returned by the realm's authentication server
- B. the result of a host check rule for machine certificate
- C. the authentication realm accessed
- D. the user's username and NetBIOS name

Correct Answer: A

QUESTION 3

You are connected with a VPN tunnel on a wired interface and notice that your VPN session drops when you enable your wireless interface. What would cause this drop to occur?

- A. split tunneling
- B. route monitor
- C. split monitor
- D. route precedence

Correct Answer: B

QUESTION 4

You want to restrict role access to only users who have the required client certificate and pass a Host Checker policy. Which two methods in the Admin UI would set this restriction? (Choose two.)

- A. Enable the Host Checker and certificate role restrictions.
- B. Require and enforce the Host Checker and certificate authentication policies.
- C. Use a custom expression to map users to the role based on the client certificate and Host Checker policy.
- D. Use Secure Virtual Workspace to restrict access to the role based on the client certificate and Host Checker policy.

Correct Answer: AC

QUESTION 5

You have just created a Host Checker policy that limits role access to only users who sign in with company-issued computers. All users who do not pass the policy will be remediated to a different role with fewer features. Which two steps in the Admin UI must you configure to enforce the policy? (Choose two.)

- A. For the Host Checker Authentication Policy, choose "Require and Enforce".
- B. For the Host Checker Authentication Policy, choose "Evaluate Policies".
- C. For the Host Checker Role Restriction, allow all users.
- D. For the Host Checker Role Restriction, allow only users who meet the selected Host Checker policy.

Correct Answer: BD
