QUESTION 1

You are a project manager implementing a Microsoft Dynamics solution. The customer business processes are not complex, and a business process mapping is not required. You need to select the appropriate project type for this customer. Which project type should you choose?

- A. rapid
- B. agile
- C. enterprise
- D. standard

Correct Answer: A

QUESTION 2

Which two statements differentiating projects from operational work are correct? (Each correct answer presents part of the solution. Choose two.)

- A. The purpose of a project is to create a unique product, service, or result; the purpose of operations is to sustain the customer's business.
- B. The duration of a project is temporary; the duration of operational work is ongoing.
- C. The output of a project is variable; the output of operational work is continuous, daily, and predictable.
- D. The purpose of a project is to sustain the new business requirements; operations end with the adoption of a new set of objectives, and then the work continues.
- E. a project ends when it is replaced by a new process; operations end when its specific objectives have been attained.

Correct Answer: AB

QUESTION 3

Which document should you use to manage project deliverables?

- A. project scope statement
- B. project objectives
- C. technical requirements
- D. functional requirements

Correct Answer: A
