QUESTION 1

You are a consultant implementing Microsoft Dynamics NAV 2009. You guided your client through the steps to populate a Planning Worksheet using the MPS selection for the Calculate Net Change Plan function. One of the lines populated in the worksheet has the MPS Order check box selected. Your client needs to generate the dependent requirements for the line. What function do you have your client perform next so that planning is complete for the line?

- A. Carry Out Action Message
- B. Explode Routing
- C. Run Planning with the MRP check box selected
- D. Refresh Planning Line with Backward flushing selected

Correct Answer: C

QUESTION 2

Microsoft Dynamics NAV 2009 supports multi-level Bills of Material (BOMs). What are the maximum number of levels supported?

- A. 25
- B. 50
- C. 75
- D. 100

Correct Answer: B

QUESTION 3

The setup for subcontract work centers is similar to regular work centers, with some notable exceptions. What is the typical setup for subcontract work centers? Choose the 2 that apply.

- A. The Get Cost from PO check box is selected.
- B. The Unit Cost Calculation field is set to Units.
- C. A vendor is selected in the Subcontractor No. field.
- D. The vendor option is selected in the Source field.

Correct Answer: BC

QUESTION 4

When a production order is released, certain conditions must be met for all of the components to be automatically consumed from inventory. What conditions must be met? Choose the 3 that apply.

- A. Forward has been selected as the flushing method on all components.
- B. The inventory is on hand.
- C. There are no routing link codes assigned.
- D. Forward has been selected as the flushing method on the finished good.

Correct Answer: ABC

QUESTION 5

When calculating regenerative plans, supply and demand is not considered before the starting date of the planning period. Therefore, the planning system does not suggest any changes to supply orders in the frozen zone and order tracking lines are not created or maintained for the period -- with some exceptions. Within the frozen zone, what exceptions are considered by the planning system? Choose the 3 that apply.

- A. If dimensions are required on the backdated order(s).
- B. If the projected available inventory, including the sum of supply and demand in the frozen zone, is below zero.
- C. If serial and lot numbers are required on the backdated order(s).
- D. If the supply-demand set is linked by an order-to-order policy.

Correct Answer: BCD
