QUESTION 1

You have designed a business service that you want to implement as a subprocess using TIBCO Designer. Which three steps are required to create this service and call it from an existing BusinessWorks process? (Choose three.)

- A. create a process definition for the subprocess
- B. place a Return to Parent activity in the subprocess
- C. place a Call Process activity in the existing BusinessWorks process
- D. configure Return-To Drop Down on the End activity to point to the Process Caller
- E. update the process context Global Variable on the Start activity within the subprocess
- F. specify the input, output, and any error schemas of the subprocess on the Start and End activities within the subprocess

Correct Answer: ACF

QUESTION 2

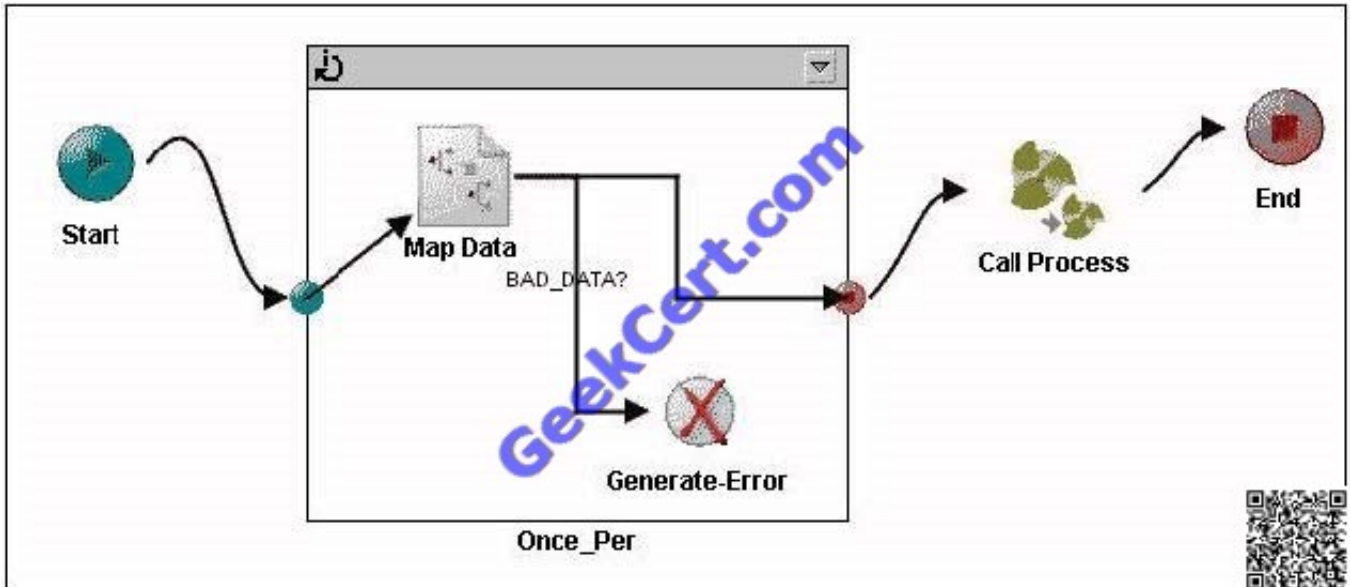

What is the single required configuration item for the HTTP Connection shared resource?

- A. port
- B. hostname
- C. activity name
- D. SSL certificate

Correct Answer: A

QUESTION 3

Exhibit:

What is the impact of the conditional transition from Map Data activity to the Generate-Error activity evaluating to true?

- A. The process thread which called this subprocess dies immediately.
- B. After generating an `$_error` object, the subprocess will continue to iterate.
- C. This subprocess dies and the process which called this subprocess gets control with an `$_error` object.
- D. This subprocess dies and the process which called this subprocess will die as soon as it gets control of the thread.

Correct Answer: C

QUESTION 4

What are four options for creating a TIBCO team building environment? (Choose four.)
