QUESTION 1

Where does TIBCO Designer maintain user preferences and console log files?

- A. in the TIBCO Designer install directory
- B. in the .TIBCO folder in the user\\'s home directory
- C. in the .DESIGNER folder in the user\\'s home directory
- D. in the preferences folder in the TIBCO install directory

Correct Answer: B

QUESTION 2

Which four can be monitored using TIBCO Administrator? (Choose four.)

- A. CPU usage
- B. active processes
- C. processes running in Tester mode
- D. process archive deployment status
- E. processes with process starter activities

Correct Answer: ABDE

QUESTION 3

Which three options are available for setting the transport between a deployed service and TIBCO Administrator? (Choose three.)

- A. RV
- B. JMS
- C. HTTP
- D. HTTPS

Correct Answer: ACD

QUESTION 4

You have built a JDBC query within a BusinessWorks process definition. Your process needs to call one of three subprocesses. Which subprocess will be called depends on the DB query result set size (zero, exactly one, or more

than one). Which two techniques could you use to determine which subprocess to call? (Choose two.)

- A. create a conditional iterate group to manage the subprocess calls based on the result set size
- B. create three conditional transitions (conditional on the three cases), one to each subprocess call
- C. create a set iterate group in which you configure a single XPath expression to manage which call to execute
- D. create a default transition to a single subprocess call; in the call configuration, create an XPath expression to manage which actual subprocess is called

Correct Answer: BD

QUESTION 5

What do you configure in an Adapter Archive resource?

- A. backup adapter log information
- B. the schemas used with adapters
- C. the transport protocol for adapters
- D. the adapter you want to associate with the archive

Correct Answer: D
