### QUESTION 1

A DevOps Engineer finds that customers are experiencing long response times.

It is unclear which responses are slow.

The cache hit ratio is low.

Many requests are served from the publish instance.

What should the DevOps Engineer use to analyze the issue?

- A. rlog.jar to analyze dispatcher.log
- B. rlog.jar to analyze request.log
- C. jtail.jar to analyze audit.log
- D. jtail.jar to analyze access.log

Correct Answer: B

---

### QUESTION 2

A client is submitting a form that contains a CSRF token that is passed using the CSRF-Token HTTP header. When looking at the web server access logs the header is printed out, but on the AEM instance the value is not present in the request.

What should the DevOps Engineer configure to make the values available on the AEM instance?

- A. Add the /clientheaders { "CSRF-Token" } in the dispatcher configuration
- B. Add X-Forwarded-Header: CSRF-Token in the virtual host configuration
- C. Add /filter /0001{ /type "allow" /glob "CSRF-Token" } in the dispatcher configuration
- D. Add Header set CSRF-Token in the virtual host configuration

Correct Answer: D

---

### QUESTION 3

What supported web server should a DevOps Engineer use when setting up the dispatcher version 4.3.1 in a Unix environment?

- A. Nginx 1.14
- B. Apache 2.0

C. IIS 7.5

D. Apache 2.4

Correct Answer: D

Reference: <https://docs.adobe.com/content/help/en/experience-manager-dispatcher/using/getting-started/release-notes.html>

#### QUESTION 4

During security tests it becomes apparent that AEM specific paths were accessible on the publish instance, which should not be accessible to the public.

What is the best practice configuration on a publish dispatcher instance?

A. /0001 { /type "deny" /glob "/system/\*" }

B. /0001 { /type "deny" /glob "\*" }

C. /0001 { /type "deny" /url "/system/\*" }

D. /0001 { /type "deny" /url "/r/\*" }

Correct Answer: D

#### QUESTION 5

How can a DevOps Engineer limit access to certain pages in the AEM Publish instance?

A. Use the security features of Adobe Drive

B. Use Access Control Lists for the authors

C. Use Closed User Groups (CUGs)

D. Use the AEM External Login Module

Correct Answer: C

Reference: <https://docs.adobe.com/content/help/en/experience-manager-learn/assets/collaboration/closeduser-groups-feature-video-use.html>
