### QUESTION 1

What gear is the transmission in when the engine is driving the car directly?

- A. first gear
- B. second gear
- C. third gear
- D. fourth gear

Correct Answer: C

In a three-speed car first gear is used to get the car moving.

Second gear is used to get it moving a little faster.

Then it is placed in third gear when it has reached a higher speed and needs less power to make it move even faster. When the third gear is engaged, no gear reduction is taking place and the engine speed is reflected in the speed at which the wheels turn.

### QUESTION 2

Glazing is the process of \_\_\_\_\_.

- A. cutting glass to size
- B. using putty to hold glass to a window frame
- C. polishing glass before using
- D. removing glass from a window

Correct Answer: B

---

### QUESTION 3

Which of these is not a type of file?

- A. single-cut
- B. half-round
- C. double-cut
- D. triple-cut

Correct Answer: D

#### QUESTION 4

"Tracking," in terms of front-end alignment, means that \_\_\_\_\_.

- A. each wheel travels independently of the other.
- B. the wheels follow well on ice or in snow.
- C. the front tires leave stronger tracks than the rear tires.
- D. the rear wheels follow the front wheels correctly.

Correct Answer: D

Tracking is correct when both rear wheels are parallel to, and the same distance from, the vehicle centerline, which is an imaginary line drawn through the center of the vehicle. A bent frame or twisted body structure will cause improper tracking.

---

#### QUESTION 5

What does "EFI" stand for in EFI computer?

- A. Electronic Fuel Insertion
- B. Electronic Fuel Injection
- C. Express Fuel Injection
- D. Engineered Focal Injection

Correct Answer: B
