## QUESTION 1

Universal Containers (UC) is a global organisation that wants to establish a B2B Commerce site to meet changing customer expectations and expand into new markets. These expectations include being able to self-serve 24x7 and get automated updates on orders. There are existing sales channels used at UC. Including a standard Sales team as well as a partner sales channel.

The sales leader met with a Solution Architect and shared that they want to grow their digital capabilities over the next 2 years. Time is of the essence and the sales leader needs to have the ecommerce solution in place as soon as possible to capture market share in new geographies before other competitors move in. The executive team has promised prompt access to key stakeholders as needed.

What is the appropriate next step for the Solution Architect?

- A. Propose the introduction of B2B Commerce and CPQ to address the key areas of need such as global commerce, complex pricing, quoting and discounting needs; highlight the key features and the alignment of the features to the needs outlined.
- B. Propose a set of high-level design options with architecture diagrams depicting the potential elements of a solution that would meet the needs of the enterprise, including pros and cons to help the stakeholders make final decisions.
- C. Recommend an iterative rollout strategy for one of the new geographies where B2B Commerce is first rolled out to secure first mover status, while the Solution Architect gathers more requirements around other capabilities and requirements, and then roll those out over subsequent phases.
- D. Recommend discovery meetings with additional stakeholders to gather information on the functional and technical requirements across the sales and other functional areas, then provide a recommendation based on information gathered to deliver an MVP.

Correct Answer: C

## QUESTION 2

Universal Containers (UC) uses Salesforce Sales Cloud to track Opportunities, Quotes, and Orders and is interested in offering self-service capability to its customers via an Experience Cloud site. Most products that UC offers are relatively simple, but some are complex and need to be configured and reviewed by a sales representative before an order can be officially placed. The CIO is concerned about the time to market and would like to see two options to address UC's need.

Which two options should a Solution Architect recommend and present to UC?

Choose 2 answers

- A. Implement B2B Commerce on Experience Cloud to allow customers to purchase simple products with Add complex product configurations in a follow-up phase.
- B. Implement Salesforce CPQ internally first, then build "product configurator" functionality in a custom Experience Cloud site in a follow-up phase.
- C. Implement a templated self-service Experience Cloud site to show product information, add a "Request a Quote" component, and recommend B2B Commerce implementation in a follow-up phase.
- D. Implement a custom Experience Cloud site with "product configurator" functionality first, then add headless

commerce functionality in a follow-up phase.

Correct Answer: AD

---

### QUESTION 3

Universal Containers (UC) is using Sales Cloud and Service Cloud. UC wants a solution that can send scheduled emails on a daily, weekly, or monthly basis to existing customers and prospects. UC also wants to track if customers have opened the emails. There can be as little as 1,000 emails in a week or as many as 100,000 emails in a month, depending on the season.

Based on that criteria, which solution should the Solution Architect recommend to UC?

- A. Set up scheduled flows to handle email sending and tracking.
- B. Recommend Marketing Cloud Account Engagement.
- C. Develop a custom solution using scheduled Apex to send emails.
- D. Recommend Marketing Cloud Personalization.

Correct Answer: D

---

### QUESTION 4

Universal Containers (UC) is currently utilizing Sales Cloud and Revenue Cloud for its direct Sales team. UC would like to create an indirect Sales team with its vendors using Experience Cloud as the front end with the same kind of quoting functionality the direct Sales team uses within Revenue Cloud. However, UC wants to ensure that data from the internal direct Sales team is not visible to the external indirect Sales team in Experience Cloud.

What is the first configuration a Solution Architect should consider when implementing Experience Cloud in this scenario?

- A. Make internal organization-wide defaults Public Read Only to create external visibility.
- B. Enable External Sharing Model to create external organization-wide defaults.
- C. Start creating Sharing Sets for Experience Cloud users to access Sales Cloud.
- D. Add Indirect Sales Team to existing Direct Sales Team Role Hierarchy.

Correct Answer: B

---

### QUESTION 5

Universal Containers (UC) is concerned about potential data storage issues in Salesforce due to the Invoice, Order, and Inventory data that would be flowing in from various on-premise legacy CRM and ERP applications. UC would like to view and occasionally report on this data on-demand for day-to-day operational processes and would prefer not to store the data in Salesforce due to data residency requirements.

Which recommendation should the Solution Architect make to meet this requirement?

- A. Use Salesforce Orchestrator with MuleSoft to retrieve the data when it is needed.
- B. Push the data into Salesforce and implement an archival strategy.
- C. Write custom Apex code to retrieve the data in real time from external systems.
- D. Re-architect the implementation using Salesforce Connect and external objects.

Correct Answer: D
