## QUESTION 1

[Merchant Tools](#) > [Content](#) > [Import & Export](#) > [Content Images - Select Library](#) > Content Image

### Content Image

You can upload and manage files for other languages if required.

Select Language:

The tree shows the content image directory structure. To add new directories, select the parent directory, enter the name in the field below, and click **Add**.

The table below the tree shows the content of the selected directory. To upload files into the selected directory, click **Upload**.

**Warning: The file size is limited to 100 MB.**

### Directories

New Directory:

[Library\\_Sites\\_RefArch\\_SharedLibrary](#)

### Files

Upload File:

There are currently no files to show here.

A merchant uploads an image using the Content Image Upload module of Business Manager.

Which three modules can the merchant or developer use to display the image on the Storefront? (Choose three.)

- A. Content assets
- B. Storefront catalogs
- C. ISML templates
- D. Content slots
- E. Payment types

Correct Answer: ABD

### QUESTION 2

Universal Containers wants to add a model field to each product. Products will have locale-specific model values. How should the Digital Developer implement the requirement?

- A. Utilize resource bundles for translatable values.
- B. Set the model field as a localizable attribute.
- C. Store translated model values in different fields; one field for each locale.
- D. Add model to a new custom object with localizable attributes.

Correct Answer: C

---

### QUESTION 3

A developer has a B2C site and a merchant requirement to add a new locale to it. What are the steps to enable the locale in the Storefront?

- A. Update the language under the Organization Profile section.
- B. Create, configure, and activate the locale under Global Preferences section.
- C. Add an alias for the new locale and then create and configure the locale itself under Global Preferences section.
- D. Create and configure the locale under Global Preferences section and activate it in Site Preferences.

Correct Answer: B

---

### QUESTION 4

Given a template rendered by a controller with caching and a remote include without caching, which situation applies?

- A. The remote include portion is not cached, but the rest of the page is cached
- B. Both the remote include portion and the rest of the page are cached
- C. The page is cached only for returning customers because of the remote include
- D. The page is not cached because the remote include introduces an uncached portion

Correct Answer: A

---

### QUESTION 5

A Digital Developer needs to check for product inventory in a specific inventory list using the Open Commerce API. An example request URL is:

---

```
http://sitegenesis.demandware.net/dw/data/v18_3/inventory_lists/  
ecom-inventory/product_inventory_records/00883408601
```

Which resource\_id value enables the appropriate resource?

- A. /inventory\_lists/\*
- B. /inventory\_lists/\*\*
- C. /inventory\_list\_search
- D. /products/\*

Correct Answer: D
