### QUESTION 1

Clifford's lawn work is steady and up to standard as long as his work is verbally praised approximately every twelfth completed mower circuit. However, at times the crew chief is unable to praise his work at that moment. When praise is not forthcoming, Clifford usually stops working. The best way to facilitate maintenance and generalization of Clifford's work, using a self-management technique, would be to:

- A. have fellow workers provide praise when Clifford stops working.
- B. have the crew chief use a variable schedule of reinforcement.
- C. increase the delay in reinforcement until the afternoon.
- D. teach Clifford how to request reinforcement for the target behavior.

Correct Answer: D

### QUESTION 2

A teacher is tracking the performance of both math and spelling assignments for each of her 25 students. For feedback purposes, she wishes to display each student's percent correct for both areas using a line graph. What would be the MOST effective and efficient way to accomplish this?

- A. Prepare a large graph for spelling and a similar one for math and place on the graphs the average data for the entire class in the two content areas.
- B. Prepare a separate graph for each student and, using a unique symbol for each content area, record the data and connect the similar symbols to create data path lines.
- C. Prepare a single large graph and display each student's data for the spelling and math areas using unique symbols for each student and for each content area.
- D. Prepare two graphs for each student, one for spelling and one for math, because there is no appropriate method for reporting these two content areas together on the same graph.
