Following Questions and Answers are all new published by IBM Official Exam Center

QUESTION 1

Which IBM website provides the most current support matrix information for the IBM Storwize product line?

A. IBM Infocenter

B. IBM System Storage Interoperation Center

C. IBM Sales Manual

D. IBM Knowledge Center

Correct Answer: B

Reference: https://www-03.ibm.com/systems/support/storage/ssic/interoperability.wss

QUESTION 2

A customer experienced an issue on a mission-critical application during overnight processing. The customer needs help understanding exactly when the problem happened and help with troubleshooting.

Which feature of IBM Spectrum Control aids in problem determination?

A. Storage Resource agent

B. IBM Spectrum Virtualize GUI Performance Statistics

C. Storage Optimizer

D. Custom reporting

Correct Answer: A

QUESTION 3

A customer is considering IBM VersaStack as the new data center standard. The customer is attracted to the IBM Storwize V7000 storage system because of the flexibility, but the customer has legacy storage that must be retained.

What is the primary benefit of IBM VersaStack with IBM Storwize V7000 over competitive converged architectures?

A. The IBM VersaStack is optimized for Cisco NEXUS switches combining multiple storage protocols

B. The IBM VersaStack provides an integrated foundation for both virtualized and non-virtualized solutions

C. The IBM Storwize V7000 offers many options for connectivity enabled by the host adapter card selections

D. The IBM Storwize V7000 enables legacy storage as part of an IBM VersaStack

Correct Answer: B

QUESTION 4

A company needs to configure an IBM SVC Enhanced Stretched Cluster. The two nodes are located in different buildings on the campus that contain isolated SAN fabrics.

Which option can be used to configure the interconnect?

A. FCIP

B. 1 Gb Ethernet

C. FCoE

D. iSCSI

Correct Answer: A

QUESTION 5

An IBM FlashSystem V9000 customer wants to upgrade its system due to additional workloads.

What is a valid upgrade path to add performance and capacity?

A. Add IBM FlashSystem Storage enclosures

B. Add node pairs

C. Add node pair with storage enclosure (building block)

D. Add F Model Expansion enclosures

Correct Answer: C
