QUESTION 1

Which IBM Cloud network service offers multi-tenant connections to the IBM Cloud infrastructure through the local IBM Cloud datacenter?

- A. Direct Link Network
- B. Direct Link Exchange
- C. Direct Link Contact
- D. Direct Link Dedicated

Correct Answer: B

QUESTION 2

What are two things to consider when choosing where to deploy Microservices?

- A. Microservices core functions content catalog must reside in all data centers where Microservices run
- B. The region where any personal data resides
- C. Microservice workloads should be co-located where their data resides to reduce latency between the microservice and data persistence store
- D. Microservices on the same host must be part of one deployment
- E. Microservice workloads, when possible, should be co-located where backups reside to reduce latency and ensure resiliency

Correct Answer: AC

QUESTION 3

What are two services or capabilities for developing and deploying microservices in IBM Cloud?

- A. Polyglot programming and persistent data store
- B. Tools for testing and rapid deployment
- C. Services to analyze and visualize data
- D. Graphical tools for modeling
- E. Backup and monitoring tools

Correct Answer: AB

QUESTION 4

Machine Learning uses which approach for learning through trial and error?

- A. Probabilistic Learning
- B. Deductive Learning
- C. Iterative Learning
- D. Reinforcement Learning

Correct Answer: D

QUESTION 5

The image below shows which VMware solution for an integrated hybrid cloud infrastructure platform?

- A. VMware Cloud Foundations
- B. VMware Software-Defined Data Center
- C. VMware Virtualization
- D. VMware vRealize

Correct Answer: D
