QUESTION 1

What compute option is designed for developers and requires no system administrators to maintain the infrastructure?

- A. Serverless
- B. Bare metal servers
- C. Virtual servers
- D. Containers

Correct Answer: D

QUESTION 2

What is a smart assistant (also known as virtual assistant)?

- A. A software application that continues to learn about the user's preferences as usage grows
- B. A Cloud device that enables DevOps to build applications easier and faster
- C. A tool that helps to manage compliance to various standards
- D. A small sensor or other device that constantly send its status and other data to the cloud

Correct Answer: A

QUESTION 3

What is the definition of a monolithic application?

- A. A small single purpose software application, commonly deployed in a container that interacts with other similar applications in order to form a system
- B. A single-tiered software application in which the user interface and data access code are combined into a single program from a single platform
- C. An application that deploys onto a proprietary software platform
- D. A technical term for describing applications which have reached end-of-life due to software support expiring or new business requirements arising that result in an upgrade being required

Correct Answer: B

QUESTION 4

In IBM Cloud, what function does a public gateway in a Virtual Private Cloud (VPC) provide?

- A. Name resolution to allow traffic to find the website
- B. Extension of on-premises resources to the cloud
- C. Internet connectivity to the web servers
- D. Load balancing to the app servers

Correct Answer: C

QUESTION 5

According to NIST, how is cloud computing defined?

- A. A model for enabling convenient, on-demand network access to a shared pool of compute resources
- B. On-demand non configurable computer resources that can be rapidly provisioned
- C. The capability to provide dedicated network access that can be provisioned in batch mode
- D. A model for delivering a dedicated pool of computing resources on premises

Correct Answer: A
