Correct Answer: AD

---

#### QUESTION 3

As part of a VPC, what do Access Control Lists provide?

- A. Subnet level firewall capabilities
- B. Ability to restrict user access by role
- C. Ability to prevent DDoS attacks
- D. Governance for privileged access

Correct Answer: A

---

#### QUESTION 4

How can cloud computing make a real difference to a customer's business?

- A. Cloud delivers predictable monthly CAPEX charges which allow many businesses to more easily manage their IT

budgets based on known costs and their changing compute demand

B. Cloud environments offer high availability by default meaning that migration to cloud will immediately solve any issues the business has had with application downtime

C. Cloud makes it possible for businesses to greatly decrease the time from decision to value by enabling the ability to experiment, learn, and fail fast, without large amounts of upfront capital

D. Cloud vendors sell annual hardware hosting contracts to tens of thousands of customers and can discount heavily due to economies of scale meaning cloud is inexpensive

Correct Answer: A

---

#### QUESTION 5

When building a solution that requires an intelligent search service that will deliver specific answers to questions while also serving up an entire document for exploration, which IBM Cloud service should be used?

A. Knowledge Catalog

B. Watson Discovery

C. Knowledge Studio

D. Watson Explorer

Correct Answer: B
