D. NodeDefaultKeyStore

Correct Answer: D

QUESTION 4

Vanessa wants to be logged on to IBM Sametime, but invisible to everyone outside of her team.

In order to accomplish this task, what must she select after she clicks on the "When I am Online" tab under the Privacy Settings options?

A. "ONLY those on this list can see me online."

B. "ASK ME before responding to their messages."

C. "Everyone EXCEPT those on this list can see me online."

D. From the list of users shown, select who she wants to include.

Correct Answer: D

QUESTION 5

Margaret has configured a Sametime Meeting Server cluster to support high availability using a load balancer at http://meeting.renovations.com. However, users are complaining that they are seeing different content on the sidebar in the meeting room.

How can Margaret identify the cluster member that is causing problems and resolve the issue?

A. Configuring single sign-on between the Sametime Meeting Server nodes will allow users to see the same meeting rooms.

B. She can restart the load balancer which will force a synchronization of the Sametime Meeting Server nodes and allow users to see the same meeting rooms.

C. She can isolate the problem server by stopping the secondary node. This will force traffic to be redirected to the primary node where Margaret can examine its logs to see if it is the problem node.

D. Logging directly into the Sametime Meeting Servers at either

Correct Answer: B
