#### QUESTION 4

An author has created a dashboard and added a filter. The author anticipated this filter to be applied to all visualizations on the dashboard but it was only on some of them.

Why did this happen?

- A. The local filter sync was not enabled.
- B. The global filters property was disabled.
- C. The filter was not created as a data set filter.
- D. The filter was not applied to the default visualization.

Correct Answer: C
