### QUESTION 2

For which customer is IBM UrbanCode Deploy likely to be identified as the solution of choice?

- A. A customer that has a large number of legacy mainframe applications that need to be migrated to modern tools to support online and mobile usage
- B. A customer that is experiencing high testing costs due to poor functional test coverage and dependence on third-party applications to test developer changes.
- C. A customer that is experiencing cost overruns coming from large-scale projects involving multiple teams, including some that are outsourced
- D. A customer that is experiencing long lead times to deliver applications to production and difficulty coordinating across multiple applications with varying schedules

Correct Answer: D

---

### QUESTION 3

Which three tasks are typically performed by an environment owner who uses IBM UrbanCode Deploy to establish a deployment pipeline? (Select three.)

- A. Performs tests on applications in this environment
- B. Installs agents on the resources in environment
- C. Previews changes in environment
- D. Rolls back changes to environment
- E. Captures inventory compliance status

Correct Answer: BCD

C: You can preview an application snapshot before you deploy it to see the upcoming changes in resources and properties.

D: Rollback Component rolls back a component version to the version in a snapshot or to the version that was deployed when the process began. In most cases, to switch to a different version of a component, you deploy the new version over the existing version. If necessary, you can run the uninstallation process for the component first.

#### QUESTION 4

Directors at a client meeting report experiencing delays in delivering new features to market. They indicate that a key cause is the handoffs between development and test teams. What is a key business benefit of IBM DevOps solutions that you should tell them about?

- A. IBM DevOps solutions will make all web applications run 20% faster.
- B. IBM DevOps solutions will lower customer-reported defect rates.
- C. IBM DevOps solutions will increase the risk associated with new customer-introduced requirements.
- D. IBM DevOps solutions will dramatically reduce costs and overall time to delivery.

Correct Answer: D

---

#### QUESTION 5

Which three must be installed to have a working installation of IBM UrbanCode Deploy? (Select three.)

- A. UrbanCode agent monitor
- B. UrbanCode Deploy agent
- C. Database
- D. UrbanCode Deploy server

Correct Answer: BCD

A IBM UrbanCode Deploy installation consists of the IBM UrbanCode Deploy server, a database, and at least one agent.
