**QUESTION 1**

Which command sets the randomization setting in order that clients are assigned start times that are randomly scattered across the first half of each startup window?

A. SET SCHEDRANDOMIZE 50

B. UPDATE RANDOMIZE 50

C. SET SCHEDULE RANDOMIZE 50

D. SET RANDOMIZE 50

Correct Answer: D

Use the SET RANDOMIZE command to set randomized start times within the startup window of each schedule for clients by using the client-polling scheduling mode.

Syntax Read syntax diagramSkip visual syntax diagram >>-Set RANDomize--percent-

**QUESTION 2**

There are two servers, server1 and server2. What is enabled when the command, SET DISSIMILARPOLICIES SERVER2 ON is issued on server1?

A. It enables the use of more than one server1 policy for management of replicated data on server2.

B. It enables server1 to manage replicated data on server2.

C. It enables the policies on server2 to be used for management of replicated data from server1.

D. It enables exporting policies from server1 to server2 so they can be used for management of replicated data.

Correct Answer: C

Use the SET DISSIMILARPOLICIES command to enable the policies that are defined on the target replication server to manage replicated client-node data. If you do not use the policies on the target

replication server, replicated client-node data is managed by policies on the source replication server.

ON specifies that replicated client-node data is managed by the policies that are defined on the target

replication server.

**QUESTION 3**

What is a prerequisite when using multiple data streams for backup and restore of the IBM Spectrum Protect server database?

A. sufficient library paths

B. sufficient mount points

C. an installed IBM Spectrum Protect Server Tool

D. DB2 API utility

Correct Answer: B

To run eight reclamation processes simultaneously, you need a total of at least 16 mount points and 16 drives. The device class for the two storage pools must have a mount limit of at least 16.

**QUESTION 4**

How can an administrator determine when the IBM Spectrum Protect server database backup starts?

A. Configure IBM Spectrum Protect to send a page when the backup database begins

B. Configure IBM Spectrum Protect to pop up a display when the backup database begins

C. Configure IBM Spectrum Protect to play a sound when the backup database begins

D. Configure IBM Spectrum Protect to send an e-mail alert when the backup database begins

Correct Answer: D

---

**QUESTION 5**

On an IBM Spectrum Protect Windows server, which utility can be used to identify disk bottlenecks?

A. monitor

B. perfstat

C. perform

D. nmon

Correct Answer: B
