QUESTION 2

When configuring IBM WebSphere Application Server to use LDAP, which of the following is used to connect to the LDAP server?

- A. Bind distinguished name
- B. Base distinguished Name
- C. Operating System user name
- D. Primary administrative user name

Correct Answer: B

Reference: https://www.ibm.com/support/knowledgecenter/en/SSJJ9R_6.0.2/com.ibm.jazz.install.doc/topics/t_instl_config_ldap_on_was.html

QUESTION 3

An administrator has made a configuration change to a server in network deployment topology.

Which statement describes the synchronization process in this scenario?

- A. Configuration changes on a server are prohibited.
- B. Node agent synchronizes its files with the master repository.
- C. Configuration changes are maintained on the node's master repository.
- D. Node agent synchronizes its files with the master repository when the deployment manager is restarted.

Correct Answer: C

QUESTION 4

Which statement describes an administrative request to start a server in a cell topology?

- A. The admin application running on the node forwards the request.
- B. The request is sent to the web server running on the node agent.
- C. The request is sent to the admin service running on the node agent.
- D. The admin service running on the application server forwards the request.

Correct Answer: D

QUESTION 5

Which is true when installing interim fixes silently?

- A. No response file is needed.
- B. A password file is required.
- C. Greater permissions are needed.
- D. An online repository must be used.

Correct Answer: C

Use the Update Installer program from the same user ID that installed the product that you are updating. Otherwise, the file ownership mismatches might require correction by the root user.

Note: An interim fix is also known as a patch.

Incorrect Answers:

A: A response file is required. For example:

[Windows]: update.bat -silent -options "responsefiles\file_name"

D: A repository can be an online location that hosts the interim fix files and other configuration information, or a local file system that contains the files.
