QUESTION 1

In a work item comment, what is happening when "@" followed by a user ID (for example, "@clara") is added?

- A. The addressee receives a notification that she was mentioned in the comment.
- B. The work item is automatically assigned to the addressee.
- C. A review is created, and the addressee is added as a reviewer.
- D. The comment is only visible to the addressee that is mentioned.

Correct Answer: A

QUESTION 2

What are configurable items for the process template?

- A. timelines, iterations, roles, and operational behaviors
- B. plugins, cheat sheets, and dependencies
- C. Java source code, source comments, and event handlers
- D. categories, releases, and access control

Correct Answer: A

QUESTION 3

Which two statements are true about the Team Artifacts view in the Eclipse client? (Choose two.)

- A. The view provides centralized access to team-related information and the artifacts that the viewer's team is working on.
- B. The view can be configured to only show artifacts associated with teams that the viewer is interested in.
- C. The view provides quick information about the project status and can be customized using widgets.
- D. The view tracks the repository workspaces that are in the viewer's current sandbox, and manages the viewer's change sets.
- E. The view displays the number of work items by tag attribute for a given query.

Correct Answer: AB

QUESTION 4

A user discovers they have outgoing pending changes they did not make. What is the most likely explanation?

- A. Someone else delivered changes to the user's repository workspace.
- B. Someone reverted changes that the user had already accepted in their repository workspace.
- C. The team lead changed the baseline of a component on the integration stream to which the user's repository workspace delivers its changes to.
- D. A new component was added to the integration stream that the user's repository workspace delivers its changes to.

Correct Answer: B

QUESTION 5

When using the Scrum process template for a project, which two work item types would one expect to see on a Product Backlog? (Choose two.)

- A. task
- B. milestones
- C. defect
- D. epic

Correct Answer: CD
