QUESTION 1

In SAP Web IDE, you rename a dimension calculation view that is used by a cube calculation view. Afterward, you perform the following build operations:

*Build the dimension calculation view as a single object.

*Build the entire SAP HANA database module. What is the outcome of the build operations?

- A. The first build fails. The second build fails.
- B. The first build is successful. The second build is successful.
- C. The first build fails. The second build is successful.
- D. The first build is successful. The second build fails.

Correct Answer: B

QUESTION 2

Why does query performance decrease when the data volume of the delta storage is large?

Note: There are 2 correct answers to this question.

- A. The data is unstructured.
- B. The data is uncompressed.
- C. The data is stored in the warm tier.
- D. The data is NOT sorted.

Correct Answer: BD

QUESTION 3

In your calculation view, you need to define a custom data source using SQLScript. In which object do you write your SQL Script?

- A. Table function
- B. CDS view
- C. Procedure
- D. Virtual Table

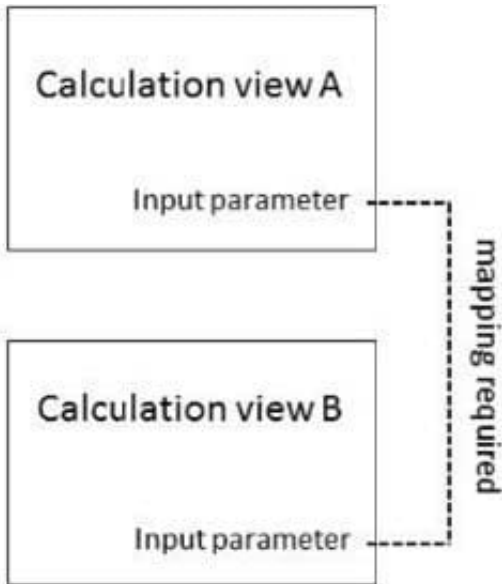

Correct Answer: A

QUESTION 4

You want to map an input parameter of the calculation view A to the input parameter of calculation view B using the parameter mapping feature in the calculation view editor. However, the input parameter of the calculation view B is not proposed to you as a source parameter.

What might be the reason for this?

- A. You selected the wrong parameter mapping TYPE.
- B. The names of the input parameters do not match.
- C. You already mapped the input parameters in another calculation view.
- D. Your source calculation view is of the type SQL Access Only.

Correct Answer: C

QUESTION 5

After importing a project in the workspace of the Web IDE, you try to build the HDB module. The build fails. What could be the reason?

Note: There are 2 correct answers.

- A. The HDB module references a user-provided service that does not exist.
- B. You have assigned the project to a space that you do not have developer authorizations for.
- C. You have not built the project.
- D. The project is not assigned to a space.

Correct Answer: AB
